SHEFIU-BADAMOSI ABDULBAAQIY

FRONT-END DEVELOPER | REACT.JS | JAVASCRIPT

+2349064082383 | abdulbaaqiyshefiu@gmail.com | Oyo State, Nigeria | https://github.com/abaaqiy | https://www.linkedin.com/in/abdulbaaqiy-shefiu-badamosi-373ab3351 | portfolio-drab-iota-86.vercel.app |

PROFESSIONAL SUMMARY

Software Engineering student at Obafemi Awolowo University with hands-on experience building web interfaces using JavaScript, React.js, HTML, and CSS. Familiar with component-based development, responsive UI implementation, conditional rendering, form handling, and modern front-end development tools. Interested in applying front-end engineering knowledge to real-world technical challenges, including AI model training, evaluation, and quality improvement. Possesses strong analytical thinking, attention to detail, communication, and problem-solving skills. Eager to contribute technical knowledge, evaluate front-end implementations, and provide clear, constructive feedback in remote project environments.

EDUCATION

Obafemi Awolowo University, Ile-Ife, Nigeria

Bachelor's Degree in Software Engineering

Undergraduate Student | [2029]

Relevant areas: Programming fundamentals, software requirements, software design, and problem-solving.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks and Styling:** React.js, Tailwind CSS
- **Development Tools:** Git, GitHub, Visual Studio Code, Vite, npm
- **Front-End Development:** Responsive web design, reusable components, props, state, conditional rendering, event handling, form handling, and debugging
- **Technical Problem-Solving:** Code analysis, logical reasoning, testing interface behaviour, and identifying UI issues
- **Professional Skills:** Written communication, attention to detail, independent work, adaptability, and time management

WORK EXPERIENCE

Event Ticket Generator

Technologies: HTML5, CSS3, JavaScript

- Developed a web tool that generates event tickets from user-provided details.
- Implemented form-based input, dynamic ticket preview rendering, and reusable interface components.
- Worked on responsive styling and clean layout for both the input form and ticket output.

Source Code: https://github.com/abaaqiy/event-ticket-generator

Clipboard Landing Page

Technologies: HTML5, CSS3

- Built a landing page based on a Frontend Mentor design challenge.
- Implemented page layouts, typography, spacing, and visual elements to reflect the reference design.
- Worked on responsive presentation and consistent styling across screen sizes.
- Incorporated SVG icons and accessibility considerations into the interface.

Source Code: https://github.com/abaaqiy/clipboard-landing-page

Amazing Roy Website
Technologies: HTML5, CSS3, JavaScript

- Built a bespoke fashion brand website for a modest couture label, focusing on clean editorial layout and refined visual presentation.
- Implemented responsive page sections, typography, and service showcase components to match the brand's design direction.
- Worked on layout consistency and visual hierarchy across mobile, tablet, and desktop screen sizes.
- Deployed the project to production using Vercel.

ADDITIONAL INFORMATION

- **Location:** Ibadan, Oyo State, Nigeria
- **Work Preference:** Remote contract opportunities
- **Areas of Interest:** Front-End Engineering, React.js, JavaScript, UI evaluation, and AI model training and evaluation
- **Languages:** English and Arabic
